

Cameron Park Community Service District  
Parks, Recreation Facilities & Open Space Operational Plan  
May 8, 2020

Beginning Saturday, May 9, 2020, the Cameron Park Community Services District (District) will re-open the following park and recreation amenities: tennis/pickle ball courts, dog park, restrooms, skate park, and disc golf course. Playgrounds, Community Center and pool remain closed due to CDC guidelines. Drinking fountains remain off. District staff will continue normal maintenance activities.

Park users will be using these facilities at their own risk. The District encourages and expects residents to take appropriate precautions to prevent the spread of COVID-19, which include handwashing before and after going to a park, adhering to social distancing and not gathering with individuals outside of their household. Signs informing park users of these precautions are posted in parks; closed signs are posted at closed amenities. We especially encourage parents to talk with their teens who may be outside unsupervised by a parent, about appropriate precautions.

If the District finds that excessive crowds are gathering at these park amenities without taking appropriate COVID-19 precautions, the amenity will be closed. The District has no additional enforcement capabilities.

District office and Fire Stations remain open to the public for business to be conducted by phone or email.
