At the time of this writing, it's hot outside – mid-90's. You're probably looking forward to milder days and cooler evenings. Autumn in the foothills can be a wonderful time and before you know it, the leaves are changing and, fingers crossed everybody, we start getting periods of wet weather. Just as the seasons change, it's good for people to think about changes and challenges they can make to shake things up. The Cameron Park CSD is here to help. We offer classes for adults and kids, like Cooking with Adults, Cooking with Kids, Charcuterie, and a Speaking Spanish class. We have Youth Ballet classes and Taekwondo, not to mention Lap Swim and Deep-water Exercise. Then there's the fall events, like the Smash Bros Tournament for Teens, Halloween Boo Bash, and the Christmas Craft Faire. The Cameron Park CSD is more than summer activities. Check us out at cameronpark.org to see if we have something for you.

FROM THE CC&R DEPARTMENT

As outdoor recreational activities end for the summer, we need to be cognizant of our CC&Rs. It is our responsibility to be a good neighbor by keeping our frontages clean. Here are some ways you can avoid a violation notice from the CC&R Inspector:

- **Recreation Vehicles:** All trailered items and motor homes need to be stored offsite or behind fence lines. Depending on your neighborhood, you may be required to store your items offsite. Check your CC&Rs to see what storage requirements may apply to your items.
- **Materials:** Landscape, building and project materials need to be stored behind a fence line. In addition, appliances, garbage cans, furniture, etc. are not allowed to be on your frontage and need to be properly stored out of site.
- **Steel Structures:** All steel structure builds, including car/trailer ports are not allowed in the Cameron Park CC&R Community. Additionally, this is supported by the county through the permitting process for structures. Steel structures will receive a violation notice to remove. Any structures over 120 square feet require an EDC permit and CPCSD ARC Approval.
- **Landscape:** These requirements vary depending on your neighborhood, but it is good practice to keep your weeds down, hedges trimmed, and site lines cleared. This contributes to keeping the neighborhood looking good.

To help our community and the CC&R office, we ask that you all check your home frontages for the above items to keep our neighborhoods looking clean and to avoid violation notices. For any questions, please email ccr@cameronpark.org.

FROM THE PARKS & FACILITIES DEPARTMENT

The CSD's Assembly Hall is the perfect location for your events such as birthdays, weddings, retirement parties, company holiday parties, and conferences! The Assembly Hall features a large stage, digital projector with a 12' by 12' screen and sound system, a connected commercial kitchen, and can accommodate 356 guests for assembly-style seating and 252 for banquet-style seating. Your rental also includes 6' long and 4' round tables and chairs!

If the Assembly Hall is too large for your meeting needs, then check out the Social Room! This 784 square foot room featuring a swivel-mount TV for presentations, Wi-Fi, and a white board. This room can accommodate 112 guests for assembly-style seating and 53 guests for banquet-style seating.

In addition to the Assembly Hall and Social Room, the Community Center has many rental spaces to accommodate your needs! For more information and the rental application, visit our website.

Are You Doing the Right Thing, the Wrong Way?

Lawn mowers, weed-eaters, chain saws, grinders, welders, tractors, and trimmers can all spark a wildland fire.

Here's how to do it the right way:

MOWING

Mow before 10am, but never when it is windy or excessively dry. Lawn mowers are designed to mow lawns, not weeds or dry grass. Metal blades striking rocks can create sparks and start fires.

SPARK ARRESTERS

In wildland areas, spark arresters are required on all portable gasoline-powered equipment. This includes tractors, harvesters, chainsaws, weed eaters and mowers. Keep the exhaust system, spark arresters and mower in proper working order and free of carbon buildup. Use the recommended grade of fuel and don't top it off.

EQUIPMENT USE

In wildland areas, grinding and welding operations require a permit and 10 feet of clearance. Keep a shovel and a fire extinguisher ready to use. Do not drive your vehicle onto dry grass or brush
