Weed Abatement Update for November:

The Weed Abatement Specialist is continuing to do visual vacant lot inspections, photographing each lot, documenting information and updating the files and spreadsheets to reflect the most current information. To date (11/1/16) there have been 278 inspections completed with approximately 99 left (see Attachment B). It is anticipated all the inspections will be finished by mid-November.

The Weed Abatement Specialist has followed up with the County Assessor's office regarding some issues with information on county records vs. actual status (per visual inspection) and changes have been made accordingly, ie: properties with vacant lot use codes that actually have buildings on them, properties that are coded incorrectly.

The Weed Abatement Specialist has been working on a 'flow chart' for the Weed Abatement Ordinance 2016-03-16 Overview (see Attachment C). This should simplify the process for anyone interested on how the Ordinance is enforced. The Weed Abatement Specialist will also be working on updating the letters for the 2017 mailings.

No walk-ins or phone calls regarding Weed Abatement issues this month.
