III. Park Report

Submitted by: J. R. Hichborn, Parks Superintendent

General Park info

This is the time of year to start spraying the parks and applying pre-emergent, however, the weather has been little different. Staff are applying pre-emergent in some parks but are holding off on the spraying until there has been two solid weeks of sunshine. That has not kept staff from mowing and weed eating to keep the parks looking good. Staff has also started interviewing candidates for our seasonal help. The goal is to hire two weekend employees, one extra park employee and two Landscape and Lighting Assessment District (LLAD) employees to focus on the bigger LLADs.

Cameron Park Lake

- The official dedication of the Paul Ryan memorial site will be held at Cameron Park Lake on Saturday, April 8th at 2:00 p.m. This will be a very special day of remembrance and a large turnout is expected.
- There are babies at the lake!!! Geese and duck eggs have started hatching and the babies are closely following their mothers everywhere. The geese are still aggressive this time of year so staff have been getting calls from concerned walkers.
- The Kiosk has been without power for a few weeks. It was fed with an old direct burial electrical line but the line needs to be abandoned and a new line installed with today’s standards.

Rasmussen Park

- Part of the playground is currently closed to the public due to safety reasons. Equipment parts have been ordered and are expected soon.
- An additional 10 yards of infield mix has been added to the west field. With this year’s rain there was a lot of runoff that needed to be replaced.

Christa McAuliffe Park

- Rugby is back. The field was so saturated that organized sports have not been an option for the last several months.
- The field will be closed off completely on May 8th for the annual maintenance program. It will be closed for 2 ½ weeks.

Weed Abatement

- The Cal Fire crew came out to Gateway last month. They are continuing to remove brush and clear a 50 foot perimeter around the park.
- Gateway Park will be sprayed beginning April 12th. This will be a multi-phase project to help control not only the weeds but the blackberry vegetation as well. This process is new and should be very beneficial in freeing up limited crew time so that other issues can be addressed.

Landscape and Lighting Assessment Districts

LLAD staff has been hard at work keeping up with the explosion of growth on the landscape corridors. They have also been removing most of the groundcover at Bar J 15 A to make it a low maintenance corridor and be water conservative.

Community Center

- Staff has begun spring landscape projects like removing dead shrubs, pruning trees and addressing irrigation issues.
- The pool has received extra attention as the swim season is fast approaching. The pool is expected to be up and running for the season on April 14th.
- The cameras were having audio issues involving echoing and feedback so the audio has been hooked up directly to the public address (PA) system. Video streaming should begin soon.

Vandalism

No vandalism last month.

General Park Updates

- **Bocce Ball**
 - The request to revise the Rasmussen Park special use permit was denied at the El Dorado County Board of Supervisors meeting on Tuesday, March 21st. Staff is regrouping and exploring the next course of action.
 - El Dorado Hills Community Services District (EDHCS) has two courts at Promontory Park. They are putting in two more to allow for more teams to play.
 - EDHCS runs two ten-week leagues – one in March (spring) and one in August (fall).
 - They run three different leagues on Tuesday mornings and evenings and Wednesday evenings.
 - The times include – 9:00 a.m., 10:30 a.m. and 5:00 p.m., 6:30 p.m. and 8:00 p.m.
 - The teams have a five player minimum to a 10 player maximum and each player pays \$35 per league.

- Currently EDHCSD caps the leagues at 13 teams so that they all have an opportunity to play.
 - ✓ \$35 per player x 10 players per team = \$350
 - ✓ \$350 x 13 teams = \$4,550 per league per season
 - ✓ \$4,550 x 3 leagues = \$13,650 per season
 - ✓ \$13,650 x 2 seasons = \$27,300
- Other park locations were discussed at the last meeting for possible bocce ball courts, including a location at Christa McAuliffe Park. Discussions included a request for competition sized fields for soccer and rugby.

- **Sign Update**
To have the three-part sign installed looking like the picture shown at the previous Parks & Recreation Committee meeting, the installed price will be \$3,600 per sign.

- **Playground Equipment**
 - Repair vs. Replace
 - To repair the playground at Cameron Park Lake to meet today's safety standards will cost \$46,421. (Staff is working with park equipment vendors to solidify safety changes to the existing equipment which will be far below the estimated cost above.)
 - To replace the playground it will cost somewhere from \$60,000 - \$200,000 depending on how extravagant the design. Staff did, however, respond to the playground inspection and began addressing the more serious safety issues.

- **Park Inventory**
Park staff put together an inventory list of all things valued \$500 and greater. The list was then submitted to Special District Risk Management Authority (SDRMA). Park staff is also working on needs at each of the parks.

- **Ambassador at Cameron Park Lake**
JR and Kathy have left messages for El Dorado County Planning staff regarding required special permits to have an ambassador at Cameron Park Lake.
Recruiting websites:
 - www.workamper.com, www.happyvagabonds.com,
 - www.camphost.org, www.workampingjobs.com

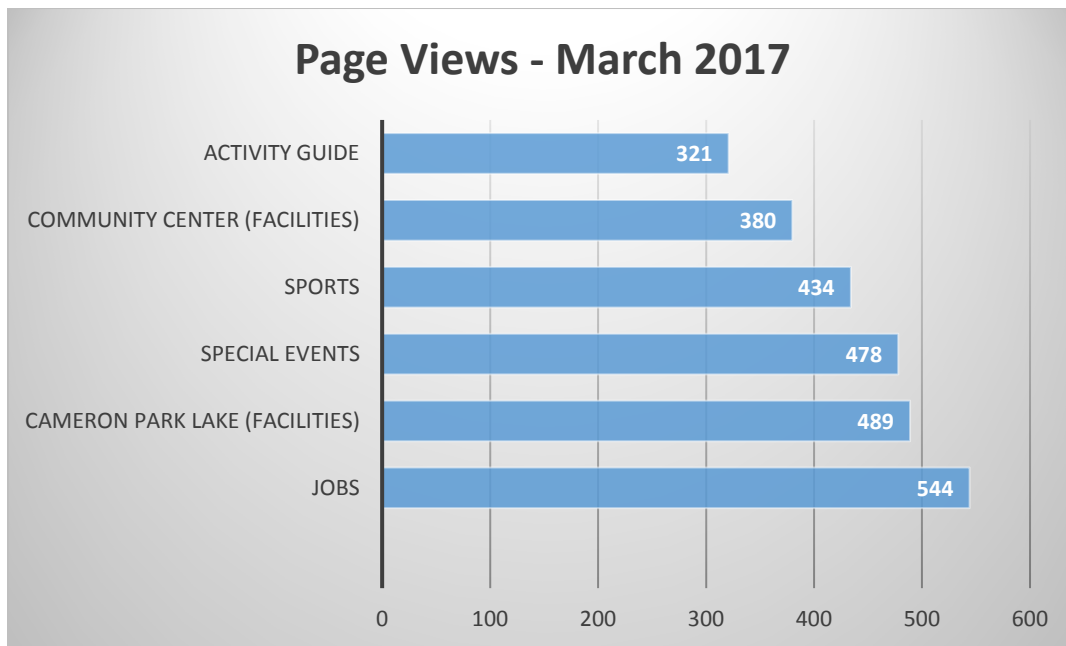

- **Seasonally Allowing Dogs at Cameron Park Lake**
Staff has been in contact with Sierra Wildlife and there are no laws prohibiting dogs to be around the wildlife at Cameron Park Lake. There is, however, a leash law in El Dorado County and dog owners would have to abide by the law. Some disadvantages to having dogs at the lake would be extra clean up, installation of doggie waste stations and certain months would be harder on the wildlife than others (March/April when bird eggs are hatching).

Executive Summary

Purpose and Mission

With these guidelines as a reference point, the Cameron Park Community Services District (CPCSD) determined that the mission and purpose of the Marketing and Program Plan (MPP) should be as follows:

The purpose of CPCSD's Marketing and Program Plan is to create a set of goals, strategies and tactics that can be used to build a strong relationship with District residents that results in value for both the residents and the CPCSD. The Marketing and Program Plan will focus on specific goals for the next two years, with projections for conceptual goals over the next five years.

Plan elements include Programming, Facilities, Public Relations, Website, Other Revenue Sources and Events. This document is being updated to reflect Fiscal Year 2016/17.

A list of objectives for the MPP has been created and displayed in order of importance. We have identified the need to increase revenue through greater program participation and increase awareness of programs, facilities and events. This list is detailed further in the MPP on pages 3 and 4.

A set of guidelines were identified as guiding principles to be used in the creation of the MPP:

- The MPP needs to be usable and simple to follow.
- The MPP will contain short term and long term sustainable goals.
- The purpose of the MPP is to guide CPCSD toward increased revenue and better service to the public.

Goals, strategies and action items are written for each plan element. This plan provides a measurable framework for directing our marketing efforts into specific activities to meet the identified objectives starting on page 4.

The following is a synopsis of each plan element.

Survey residents to get interest from the community for new classes

Staff will conduct a minimum of two mini-surveys of the public soliciting feedback on the effectiveness of our promotional efforts.

Provide surveys to attendees after each class and before each Activity Guide to assess how well current program offerings are meeting residents’ needs, and to identify changes in types of programs and the way they are delivered.

Resources

The CPCSD looked for assistance in creating the MPP. The following sources of information were incorporated into various parts of the MPP.

Marketing Procedure and Guidelines

The Marketing Procedure and Guidelines have been developed to be used whenever marketing material is created and presented to the public. Some objectives for these guidelines include, but are not limited to, the need to create uniformity in the message to the public and to ensure that budgets are used efficiently. The procedures and guidelines set standards for review of materials by the appropriate manager and the District Administrator. All advertisements will include the “Parks Make Life Better” slogan where appropriate.

Communicating the Promise through a Memorable Slogan

It would be a priority to communicate and promote the full brand promise to staff, stakeholders, users and elected officials. The essence of our profession’s promise is this memorable slogan (can also be called a tagline) that Cameron Park is “A Special Place to Live”

This phrase is simple, concise, timeless, enduring and extendable. It is at once a promise and the fulfillment of a promise. CPRS’ *Parks Make Life Better!* slogan creates a strong emotional connection between what we do and the lives of those we serve. It makes clear that our work matters to individuals, families, neighborhoods and communities.

Publications

The CPCSD reviewed several parks and recreation marketing publications, including Auburn Area Recreation and Park District’s Marketing and Program Plan (Auburn used El Dorado Hills Marketing and Program plan format).

The CPCSD utilized the Fiscal Year 2015/16 Master Plan to incorporate action items and strategies into the MPP.

Professional

The CPCSD has included the Children’s Outdoor Bill of Rights (adopted by the CPCSD Board in 2012) into many of the summer camps, outdoor programs, and special events hosted by the CPCSD.

The CPCSD fully utilized many aspects of the CPRS branding initiative.

To find what the public values about parks and recreation, CPRS conducted a public opinion research in Fiscal Year 2008-09. CPRS is the first park and recreation organization to have undertaken such a comprehensive study of public perceptions of parks and recreation.

Using CPRS’ research data, a brand promise was crafted and subsequently approved in 2009 by the CPRS Board of Directors.

Parks and recreation makes lives and communities better now and in the future by providing:

- Access to the serenity and inspiration of nature;
- Outdoor space to play and exercise;
- Facilities for self-directed and organized recreation;
- Positive alternatives for youth which help lower crime and mischief; and
- Activities that facilitate social connections, human development, the arts and lifelong learning.
